

Halogen-free compensation coupling - ZCLFHF

	Reference documents:	PN-EN 61386
	Characteristics:	Compensation coupling, flexible, fire retardant, self-extinguishing. Halogen-free (meets the requirements of the standard concerning the quantity of toxic chemicals emitted during combustion)
	Application:	Fastening system for RLHF and RSHF electrical system rigid pipes. They are mainly used in the pre-wall installations.
	Material:	PP modified
	Scope of temperatures: (transport, installation, exploitation)	-5°C ÷ 90°C
	Colour:	Grey
	Sizes [mm]:	16; 18; 20; 22; 25; 28; 32; 37; 47
